

JUDGE OF THE SUPREME COURT

Suffered Four Months From the After-Effects of the Grip--Relieved By Pe-ru-na.

The grip more than any other disease in the world leaves the system in a run-down, nervous, bloodless condition.

Peruna has become famous in relieving the deplorable condition which the grip produces.

HON. W. H. PARSONS,
925 H. St., N. W.,
WASHINGTON, D. C.

Catarth Victims Susceptible.
People who have had catarth of the head, throat, nose or lungs are much more liable to catch the grip than other people.

The reason for this is that the mucous membranes of the head, nose, throat or lungs are injured by the catarth and the germs which cause the grip find easy entrance into the system.

It is a well established fact that perfectly sound mucous membranes constitute a barrier to the entrance of disease germs.

The best precaution any one can have against the grip is to be perfectly free from catarth.

Peruna a Preventive.
As a preventive of grip, Peruna has done a great deal of good in the world by its beneficial effect upon the mucous membranes.

Catarth has another untoward influence to be noticed in connection with the grip.

Victims of catarth who have had the grip find themselves after the acute stages have passed, in very weakened and deplorable conditions.

After-Effects of Grip.
The whole nervous system is impaired; the digestive organs deranged; the circulation of the blood feeble and irregular. All these symptoms are produced, more or less, by the grip, and especially in people who have had catarth previous to the grip.

W. H. Parsons is Ex-State Senator and Ex-Special Judge of the Supreme Court of Texas, and was also Brigadier-General in Confederate Army. In a letter from 925 H street, N. W., Washington, D. C., this prominent gentleman says:

"Upon the recommendation of personal friends and many strong testimonials as to the efficacy of Peruna in the treatment of the numerous symptoms of the grip with which I have been afflicted for four months past, I have been induced to undergo a treatment with this justly celebrated formula. I feel a decided change for the better after using it only one week.

"It is especially good in toning up the stomach and has a decided effect upon my appetite. I therefore feel much encouraged that I am on the road to complete restoration.

"My numerous friends in Texas, where I have had the honor to command a brigade of her Veteran Cavalry in a four years' war, may accept this voluntary testimonial to the merits of Peruna as a sense of obligation on my part for its wonderful efficacy."—W. H. Parsons.

It is no longer merely a theory or an assertion that Peruna is applicable to such cases.

Prompt Relief.
In all of the after-effects of the grip, Peruna gives prompt relief. This has been the experience of such a great multitude of people that Peruna has come to be a standard remedy for these cases.

If a person has not used Peruna to prevent the grip, the next best thing is to use Peruna to remove the after-effects of the grip.

A Safe, Reliable Remedy.
Even during the acute stages of the grip, Peruna taken in small, repeated doses, is so efficient that many people use nothing else.

It has been noticed that those who take Peruna during the first stages of the grip generally make a more rapid and complete recovery.

A Most Effective Medicine For La Grippe.

Robt. L. Madison, A. M., Principal of Cullowhee High School, Painter, N. C., is chairman of the Jackson County Board of Education. He is a writer of occasional verse and has contributed to a number of leading papers and magazines.

In speaking of Peruna, Mr. Madison says: "I am hardly ever without Peruna in my home. It is the most effective medicine that I have ever tried for a gripper. It also cured my wife of nasal catarth."

PLAY BALL

We had occasion to visit the new proposed ball ground south of Logan situated on top of the hill to the left of the river bridge. The land is owned by the Wilson estate, and is rented by Henry Lutz, dairyman. The location is an excellent one, and the reader who has not strolled to the top of that beautiful hill, will be surprised when we tell him that there

is stretched out on top of that cliff a most suitable flat field that is calculated in every particular for a ball ground. The home plate will be located to the south and field to the north slightly raised. It will make a fast ground be-

The ground is located in the country far enough so that the bray of the rooster will not disturb the afternoon sleeper. Manager Nick Shorr is getting the effects ready and there will be doings as soon as the weather man is willing. The line up this year has not been completed, but we may count on the old reliables—Beck, Canty, Lytle, Stiers, Williams, Bantz and Wakley. Manager Shorr is in correspondence with some out-

town players and will secure them work here, and add them to the line-up. Now, let's play ball. Get in the game.
